Subject: FW: Draft letter to TXSO2 DRs
Attachments: draft email to TX SO2 desig reps 08292018.docx

Importance: High

CAMD is beginning the process to implement the Texas SO2 trading program. The attached letter will go out to all the sources around the end of next week.

There may be some questions from industry about how our recent proposal to affirm the rule impacts the implementation of the trading program.

Michael -- Here is the email we discussed yesterday. It will be sent to all affected DRs and any "agents" identified for the affected facilities. Let me know if you have questions. Software changes are set to go in place on 9/12 and the email will follow within a few days.
